

# Expeditionary Shelter Protection System (ESPS)

## Expeditionary Shelter Protection System

The Expeditionary Shelter Protection System is an innovative solution that ensures the safety of soldiers from blast and ballistic threats. The design is composed of state of the art panel armor technology strategically placed for optimum safety and protection.

### KEY ADVANTAGES .....

- ⊕ Rapidly deployable
- ⊕ Lightweight
- ⊕ Cost effective
- ⊕ Easy to transport
- ⊕ Blast and Ballistic Protection
- ⊕ Multi-levels of protection
- ⊕ Easy to install
- ⊕ Very durable

### APPLICATIONS .....

Compotech's Expeditionary Shelter Protection System is an ideal defensive solution for vulnerable:

#### Military Base Camp Protection

- ⊕ Tents protection
- ⊕ Containers protection
- ⊕ Checkpoints protection

#### Building Security

- ⊕ Government buildings
- ⊕ Embassies, Consulates
- ⊕ Hotels, Hospitals

#### Infrastructure Security

- ⊕ Industrial parks
- ⊕ Oil fields refineries

# Technical Specifications

## ESPS Competitive solution

<b>Military Base Protection Systems</b>	 <b>Sandbags</b>	 <b>T-Walls</b>	 <b>Stand Alone Wall</b>
<b>Fast deployment (35m/hour) per 4persons</b>			
<b>Simple Installation</b>			
<b>Easy redeployment</b>			
<b>Roof protection</b>			<b>OPTIONAL</b>
<b>Space Optimization</b>			
<b>Environmental durability</b>			
<b>Turnkey solution</b>			
<b>Transportation method</b>	<b>GROUND</b>	<b>GROUND</b>	<b>GROUND AIR &amp; SEA</b>
<b>Weight per surface area (Kg/m<sup>2</sup>)</b>	<b>HEAVY &gt;300</b>	<b>HEAVY &gt;500</b>	<b>LIGHT &lt; 25</b>

### TURN KEY SOLUTION ●●●●●

- ⊕ Compact Shipping
- ⊕ 1.5m x 2.5m x 0.5m shipping box
- ⊕ Less than 1000 kg per box

- ⊕ Unlimited shelf life
- ⊕ Storage friendly
- ⊕ Easy to transport
